InfoCube is a Sydney based management accounting consultancy, specialising in applying IBM Cognos and Wherescape technology for accounting and finance solutions. Our primary area of expertise is Corporate Performance Management, including:

- Rolling Forecasts,
- Budgeting,
- Planning,
- Data Warehousing,
- Management Reporting,

- Scorecards and Dashboards,
- Analysis,
- Business Intelligence,
- Consolidations, and
- Financial Statement Reporting

Our consultants are lead by a team of qualified accountants, highly experienced in management and financial accounting and with many years experience getting the most out of Business Intelligence software ([Cognos 10](#)), Corporate Planning software ([TM1](#) and [Cognos Planning](#)), Data Warehouse software ([Wherescape Red](#)) and **Microsoft SQL Server**), Financial Consolidation software ([Cognos Controller](#)) and Financial Statement Reporting software (**Cognos FSR**) into Performance Management solutions tailored for your company.

InfoCube's software partners are [IBM-Cognos](#) , where we are an "IBM Advanced Business Partner" and [Wherescape](#) . Our financial and business experience alongside these leading technology partners allows us to offer you a unique consulting combination, where you can be confident of a timely, cost effective and leading edge solution to your business intelligence, enterprise planning, forecasting, reporting, analysis or group accounting needs.
